PROFESSIONAL SUMMARY

Senior Mobile Developer with 4+ years of experience designing, developing, and deploying high-performance cross-platform mobile applications using Flutter and React Native. Experienced in building scalable mobile architectures, integrating payment gateways, implementing CI/CD pipelines, deep linking, push notifications, AI/LLM integrations, and optimizing application performance. Proven expertise in delivering production-ready Android and iOS applications while collaborating with cross-functional teams throughout the complete software development lifecycle.

TECHNICAL SKILLS

Languages: Dart, TypeScript, JavaScript

Mobile Frameworks: Flutter, React Native

State Management: Bloc, Cubit, Riverpod, Redux Toolkit, Redux, Context API, Zustand

Backend & APIs: REST APIs, Firebase, Supabase, WebSockets, SSE

Architecture & Development: MVC, MVVM, Clean Architecture, Modular Architecture

Notifications & Integrations: FCM, OneSignal, Deep Linking, Stripe, Razorpay

CI/CD & Deployment: Fastlane, Shorebird, CodePush, Play Store and App Store Deployment

Tools: Git, GitHub, Postman, Android Studio, Xcode, SonarQube

Domain Expertise: AI / LLM Applications, EdTech, FinTech, E-commerce, Healthcare, SaaS Platforms, IoT Based Applications

PROFESSIONAL EXPERIENCE

SENIOR MOBILE DEVELOPER

Acelucid Technologies Pvt. Ltd. | Uttarakhand, India

Nov 2022 – Jan 2026

- Designed scalable Flutter and React Native applications using Clean Architecture, MVVM, SOLID principles, and modular design patterns.
- Improved application performance by approximately 30% through optimized state management, efficient rendering, image caching, and code optimization.
- Architected reusable modules and scalable project structures, improving maintainability and reducing development effort.
- Integrated Stripe and Razorpay payment gateways with secure transaction workflows.
- Implemented Firebase Cloud Messaging, OneSignal, deep linking, authentication, analytics, and crash reporting.
- Automated Android and iOS release pipelines using Fastlane, reducing manual deployment efforts and improving release consistency.
- Managed Play Store and App Store releases, signing configurations, compliance requirements, and production deployments.
- Introduced SonarQube code quality practices to improve maintainability and reduce technical debt.
- Collaborated with Product Managers, Backend Engineers, QA teams, and Designers to deliver production-ready mobile applications.
- Participated in architecture discussions, technical planning, sprint estimations, and code reviews.

REACT NATIVE DEVELOPER

CFCS Cloud Solutions | Noida, India

Feb 2022 – Oct 2022

- Developed scalable React Native applications using TypeScript.
- Implemented Redux Toolkit architecture for predictable and maintainable state management.
- Integrated REST APIs, authentication, and secure token management.
- Improved UI responsiveness and application performance through rendering optimization and component reusability.

KEY PROJECTS

Mind Mentor | AI-Powered EdTech SaaS Platform

- Developed scalable Flutter applications using Bloc and Clean Architecture.
- Integrated AI/LLM APIs to build conversational interview simulation and assessment modules.
- Implemented Firebase Authentication, FCM, Analytics, Crashlytics, and secure local storage.
- Developed push notification workflows and engagement features.
- Designed reusable modules following MVVM architecture.

Technologies: Flutter, Bloc, Clean Code Architecture, Firebase Authentication, FCM, Crashlytics, Analytics, Hive, OneSignal, REST APIs, AI/LLM APIs, Secure Storages

Recipe Cup | Multi-Vendor Food Ordering Platform

- Developed React Native applications using TypeScript and Redux Toolkit.
- Built authentication, cart management, order lifecycle, payment integration, and live order tracking.
- Integrated Firebase services, push notifications, and REST APIs.
- Developed responsive UI using NativeWind.
- Managed CodePush updates and App Store deployments.

Technologies: React Native, TypeScript, Redux Toolkit, Context API, NativeWind, Firebase, REST APIs, JWT Authentication, Push Notifications, Real-Time Updates, CodePush, App Store Deployment

AWARDS & RECOGNITION

ACE Trailblazer Award | Acelucid Technologies Pvt. Ltd. | December 2024

Awarded for introducing engineering improvements, taking ownership of critical initiatives, and setting practices that enhanced the team's mobile development workflow.

EDUCATION

Bachelor of Technology (Computer Science & Engineering)

Shivalik College of Engineering, Uttarakhand Technical University
2018 – 2022
